Indiana County Revolving Loan Fund

DISCOVER THE BENEFITS OF LOW INTEREST FINANCING

ABOUT THE RLF PROGRAM

The Revolving Loan Fund (RLF) is a low interest loan program and if your business is located within Indiana County and you are having difficulty accessing traditional capital, then the RLF is available to you.

The RLF does not compete with your bank. Instead, the RLF works with your bank to get you the financing you need to complete your project.

The application process is not difficult. Rather, the process is similar to that of your bank and requires much of the same information, including, but not limited to: tax returns, a signed application, and description of the project.

Through the RLF's capital investments, new permanent jobs are created and existing jobs are retained. Since 1990 when the fund originated, the RLF awarded \$4 million in capital, while those same projects leveraged \$26 in private or other funds. In addition, those businesses sustained or created over 1,500 permanent jobs. **Let us help your business!**
